## From LaGrippe.

How Dr. Miles' Nervine Restored One of Kentucky's Business Men to Health.

No DISEASE has ever presented so many peculiarities as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nerveless, as LaGrippe. Mr. D. W. Hilton, state agent of the Mutual Life Insurance Co., of Kentucky, says: "In 1899 and '90 I had two severe attacks of LaGrippe, the last one attacking my nervous system with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. I was only conscious of intense mental weakness, agonizing bodily pain and the fact that I was hourly growing weaker. When in this condition, I commenced using Dr. Miles' Restorative Nervine. In two days I began to improve and in one month's time I was cured, much to the surprise of all who knew of my condition. I have been in excellent health since and have recommended your remedies to many of my friends." Louisville, Jan. 22, 1895. D. W. HILTON.

## Fashion Echoes.

The combination of two or more contrasting fabrics will be utilized during the fall season, not only for fancy waists, but in the making of new skirts, which are to retain their spreading, voluminous effect for at least three months to come, and probably during the winter.

A very graceful and pretty model for a cool weather shoulder cape is formed of Havana brown velvet, silk lined and trimmed on the edge of the Stuart collar with a row of bronze bead passementeries. A silk plush circle cape 22 inches in length has a small flaring collar and a sailor collar below, made of dark mink fur. A black velvet cape nearly covered with j-t arabesque garnitures has a jet-trimmed Medici collar, and is lined with Highland plaided taffeta silk.

Neat little costumes of mohair or alpaca for autumn jaunts, shopping etc., are made with jaunty open blazers and trimmed with bands and straps of the goods nearly covered with machine stitching. The straight open fronts reveal a box-plaited blouse vest made on chameleon silk, and the fronts are finished with three rows of machine stitching. The skirt is 5 yards wide, and has stitched bands at the hem, forming a neat trimming. The entire skirt it stiffened only about 10 inches above its edge.

The belt of the autumn girl is to be about 7 inches broad. It comes in all sorts of stuff, from gold and silver to leather, some of the fish-scale variety, some spangled, some plain and all bearing monstrous buckles. All women agree on the one point, that belts tend to make a stout woman less emphatically so, and slender women like them because they realize the proportions between the size of the waist and hips.

Crepons are a degree less the rage than they have been for two seasons past, mohair and repped fabrics being on the field as rivals. However, they are still very much favored, and heavy qualities are already imported in most tempting colors for present wear, and in black and superb dark colors for winter. The heaviest wool crepons are very deeply crinkled, closely resembling Japanese crepe which is not at all wiry, while others are crinkled in two-toned stripes. There are about twenty varieties of fancy crepons among the new weaves.

Robbed  
Of a nice head of hair just through negligence. When your hair begins to fall out, don't neglect it, but get a bottle of Beggs' Hair Renewer which will stop its falling out, and if turning gray, will restore its natural color. For sale by Sneed, the druggist.

## What a Printer Can Do.

A printer may have a bank and quoin and never be worth a cent; have caps and small caps and have neither wife nor children; others may run but he gets along faster by setting. He makes impressions without eloquence, uses the lie without offending, and still tells the truth. Though others cannot stand while they set he can set standing, and do both at the same time; he may use furniture and have no dwelling; may make and put away pie, yet never see or eat a pie. A human being, he may be a rat at the same time; may handle a shooting iron, yet know not a gun, cannon or pistol. He may lay his form on the bed, yet he is compelled to sleep on the floor; may use a dagger without shedding blood; from earth may handle stars and he may have a sheep's foot and never be deformed.

## Your Blood is Your Life.

Without good blood coursing through your veins you will soon look wrinkled and dried up. A few doses of Beggs' Blood Purifier and Blood Maker will change your whole system, giving you a healthy, fresh and youthful appearance. Sold and guaranteed by your popular druggist, H. L. Sneed.

## Not Wanted Unless Invited.

Do you get private letters, duly stamped and addressed to you, asking you to buy your goods, groceries or dry goods, drugs or medicines, from them? No. Did you see their invitation to you in the COURIER? No. Then they don't want your trade, and you should think too much of yourself to go to a firm when you have neither a public or private invitation to do so. Don't go where you are not invited. If you are wanted you'll be invited. See the point?

## A Lovely Head of Hair

Is something that every woman should be proud of and is something that every person can have if they use Beggs' Hair Renewer. A positive guarantee with every bottle. Sold by Sneed, the druggist.

## It Soaks Into the Flesh

right down through the fevered parts to where the inflammation is rooted. That is why Mustang Liniment "cures all aches and pains of man or beast." If it evaporated or remained on the skin it could not cure. That is why volatile extracts fail. They can't go down through the inflamed parts.

## Mustang Liniment

owes its success to its power of penetration. There is nothing marvelous about its curative powers. It is simply a few common sense ingredients combined in a way to make penetration possible and insure a cure. Mustang Liniment has been used for one-half a century.

A SURE and somewhat spectacular method of suicide was taken by Jas. Fish, who killed himself at Beaver, Oregon, recently. He stored a great quantity of giant powder in his house—under his bed, from all that could be surmised after the event—and blew himself and most of his house into nothingness. The coroner would not hold an inquest in the case, because all that could be found of the suicide's body was a part of the foot.
